

## Weekend Photography Workshops

### Playground Exploration

**Date:** Saturday June 2nd

**Time:** 9:30am – 11am

**Location:** PS24 Playground  
Open to kids in 3<sup>rd</sup> to 5<sup>th</sup> grade

Kids love going to the playground but this time we'll be exploring it from different perspectives and different angles. The playground like they've never seen it before! We'll discuss camera basics and then how to make your photos more interesting with perspective and angles. This will help to stimulate their creativity in other areas of their life.

### Colors of the Rainbow

**Date:** Saturday June 16th

**Time:** 9:30am – 11am

**Location:** Wave Hill  
Open to kids in 3<sup>rd</sup> to 5<sup>th</sup> grade

Spring as well as summer brings a wide variety of color around us. While at Wave Hill, we will see if we can discover all the colors of the rainbow. We will discuss camera basics as well as macro photography – getting close up to your subjects to see all the fine detail. These exercises will help kids to become more detail oriented and focused.
